I support LD 557 “An Act To Require Photographic Identification for the Purpose of Voting”. This bill require that a voter provide proof of identity for the purpose of voting with photographic identification approved by the Secretary of State by rule. The presentation of proof of identity in the form of a photograph 26 identification document when voting in person. A common-sense, logical requirement. Again, I support LD 557 “An Act To Require Photographic Identification for the Purpose of Voting” and it “ought to pass”.
