

Diana Albanese
Gorham

My name is Diana and I'm from southern Maine.

For the good of the people of Maine of all political parties alike, this bill Ought to Pass.

This simple plan to canvass election returns will give much needed credibility and accountability to our election process that we did not have in the past election. Several vote tallying errors occurred in Maine's 2020 election. One error occurred in Ward 5 in Bangor when the total number of votes for Dale Crafts dropped after a flash drive was placed in a counting machine that needed rebooting. If we had these safe guards in place then, processing errors would have been caught and corrected.

It is vital we have processes that ensure accountability, accuracy, and fairness in our elections.

In the best interest of all Mainers for this bill to pass, and I strongly you to vote Ought to Pass.
