

Christopher Riling
Belfast
LD 2001

My name is Christopher Riling, currently working and living in Waldo county. I deal with veteran customers every day who express concern over this. They don't deserve to be forced to move upwards of 100+ miles. After carefully listening and considering the factors going into the bill. I and many other people feel this bill needs to pass. We cannot displace our veterans into other facilities. They gave there time, there effort and for some there blood for our country. We need to keep them where they are!
