

## Testimony Against LD 94

By Jonathan Bedard

with Columbia Medical Marijuana

[Jon.Bedard@alum.MIT.edu](mailto:Jon.Bedard@alum.MIT.edu)

We operate a medical marijuana dispensary in a very rural area of Maine, we are the only dispensaries for half an hour in all directions.

Sadly, many of our patients are end-of-life, and when they pass others come to us for the same reasons. Everything from edibles to concentrates help ease their pain, and get them through a difficult time. Many have led a simple life, and if getting a medical card was any more difficult than it is now, I do not believe they would bother.

Medical marijuana is working for Maine citizens WHO CHOOSE TO USE IT, just like society knows we are not going to roll back legislation to ever allow witch trials again, they should take comfort in knowing that marijuana laws will not be rolled back and made tougher.
