Please keep ranked choice voting! I LOVE it! I think it is wonderful that Maine has been a country wide leader in getting this system in place. I wasn't sure how it worked at first, but after watching a short video explaining it, it made sense. Now I feel confident that when we vote, our preferences are truly taken into consideration. It is nice to know that this system helps eliminate the need for multiple elections, it reduces wasted votes and it is the best system to determine the candidates with the strongest support.
