I would like to keep ranked-choice voting. In fact, I would like to see it expanded in other ME elections and through out the country. Please oppose An Act to Eliminate Ranked Choice Voting. Opponents have said rank choice is confusing. It is not. I was confused about it at the voting booth when it was first used in ME. I just asked the election clerk, and she explained it to me on the spot. She did NOT tell me how to vote; she helped me to understand ranked-choice. Aside from being simple, ranked choice decreases the nastiness between candidates, it provides for major rules, and it is less costly when we have to do a run off. So, please keep ranked-choice voting. Thank you for your time.
