Wiscasset
LD 584

I am writing to support LD 266 "An Act to Require the Updating of Voter Registration Signatures." This simple process will assist in keeping our Maine voter rolls cleaned up. Voter data changes constantly as people move, die, or change parties, etc. As election/voter integrity has been suspect in past elections, addressing this issue is just common sense. Once enacted into law, this bill would help restore registered voters' faith that those on our voter rolls are supposed to be there.
