### Testimony by

Steven C. Sheppard (“write-in” Republican candidate for Governor of Maine 2026)

The Office of Cannabis Policy is more important than ever in Maine. The decriminalization of Cannabis in Maine has given opportunities to doctors, clerks, managers, growers and politicians. This particular cannabis policy office is one of the bi-products of the industry of Cannabis and the policies. The individual that assumes this much responsibility will surely get to know all the local owners and experience the different tastes of hashish and marijuana. The main duties I can foresee is keeping the office space organized; when the time comes to do some good work for the office of cannabis policy, the candidate will be ready!

("write-in" Republican candidate for Governor of Maine 2026)

This office needs some one that will be kind, interesting, accountable,  
responsible, reliable, safe and motivated to keep up the industry for the future.
