LD 855

I urge you to vote OUGHT TO PASS on LD855, An Act to limit eligibility under the Maine Clean Election Act. I believe this is a very good piece of legislation because they push the timing between asking for funds out to 15 years. This makes sense because people who have run and won have developed a following and skills for raising money through serving in the Legislature. They have been overusing this fund, and it is running out of funds. It's good for starting up a candidate but they should not become dependent. Therefore, I think limiting them to once every 15 years is an excellent idea. Please vote OUGHT TO PASS on LD 855. Help our candidates become better legislators by going to their constituents for help. Thank you
