Farmington
LD 1356

I am writing to support Rep. Lee's legislation, LD 1356.

I support Maine's unusual law to apportion electoral votes by congressional district, and wish all other states would do the same.

We are all aware of a push by Republicans to eliminate a similar system in Nebraska.

If that passes, there will be an attempt here to do the same.

Rep. Lee's legislation removes the attempt by Nebraska partisans to gain an electoral college advantage. I believe they will back off once they see there is nothing to gain from their actions.

This legislation protects Maine's system, and should be supported.
