Topsham
LD 252

I VERY STRONGLY URGE you to vote OUGHT TO PASS on LD252, An Act to Withdraw from the National Popular Vote Compact. It is absolutely imperative that we do not continue along this path of a National Popular Vote. We have used the Electoral College method of coming up with a much fairer way of the more populated areas in a way that doesn't totally take away any reason for a state with a small population to even bother voting, which is what a lot of these populated areas want. They will control who runs the country and what taxes we pay and how much money each state can get in assistance, etc. etc. Big cities will overturn small cities. Big states will overturn smaller states. The ONLY fair way is to allot Electoral votes based on Representatives and Senators. Otherwise, every election would be determined by CA, TX, FL and NY. These are the most populated states. Very unfair to the remaining states. Please vote on the side of fair elections. VOTE OUGHT TO PASS on LD252 and withdraw from the NPV compact. Do it for the future of Maine and Democracy. Thank you!
