Topsham
LD 1373

I VERY STRONGLY URGE you to vote OUGHT TO PASS on LD1373, An Act to Repeal the National Popular Vote Compact. The National Popular Vote is a very bias system of voting that favors the places with more population to control every election. The Electoral College was designed to give them a little boost, but not enough to throw every election into their hands. Basing it on the 2 Senators and the number of Representatives, means they still have more, but not enough to control everything a Popular or "population" vote would. CA, FLA, TX, and NY still have the most, but they are reachable to override by listening to EVERYONE on an equal playing field. National Popular Vote will destroy the fairness of our elections. PLEASE I STRONGLY URGE YOU, Vote OUGHT TO PASS on LD1373, and repeal the NPV vote for the Presidential elections. Let ALL the states decide on a more level playing field. Thank you!
