Committee Members:

I am tired of thinly-disguised GOP attempts to slant voting practices to favor their party.

I use the absentee balloting system regularly because I travel for a living, and am often gone during voting days. I do NOT want to be disenfranchised from voting by this measure. Therefore, I am totally against any attempts to ham-string a process that – if we are honest with ourselves – has little potential for abuse, and has a ZERO record for abuse in the past.

Let's move on to some significant and substantial legislation that will *truly* benefit your constituents.

Sincerely,

Peter Stoops
