LD 397

Please vote Ought NOT to Pass on LD 397.

Maine has an excellent system of registering voters and voting in person and via absentee ballot. There are adequate checks to ensure the integrity of our elections.

These additional identification requirements are not necessary or desirable. I have helped housebound seniors several times over the years and can say with confidence that an already cumbersome process will be made nearly impossible in many cases.

What is gained by disenfranchising long-time Maine voters?

I urge you to reject this bill.
