I am testifying against the passing of this bill. As a Maine resident who has witnessed many incredible farms stitch whole communities together as family, I believe this bill will destroy what so many farmers and families have created. The industry is built on every day people, with families and community filled with love and strength. If this bill passes, it will ripple into the lives of everyone in this state in a detrimental spiral. This industry is more than business, it is Maine's heart and soul.
