

Lanai Monahan
Mechanic falls
LD 104

My name is lanai Monahan. I am a caregiver in mechanic falls Maine. We hope you veto this bill. This does not help anyone in the medical program. If people want tested product they can get it on the adult use market. People choose Medical because it's higher quality safer product. Give people the choice. Don't make everyone fall into the same category as adult use. Adult use is known for being lower quality and worse product. Please don't do that to medical as well
