

David Stephenson
Hazy Hill Farm
LD 1567

Hello my name is David Stephenson. My wife and I are the owners of Hazy Hill Farm. We have 3 children that we support with our cannabis businesses. Our mission is to provide the best quality cannabis products we possibly can for our customers and patients. I am also an owner at High Peak Edibles where we make hand crafted edibles for both the AU and the medical market. I am one of the first caregivers in the state dating back to 2010. I own a medical dispensary, an AU store, 2 AU processing licenses, and a AU cultivation license. Between both companies we have 40 employees with about 20 of those supporting families of their own. I am also a proud member of the Maine Craft Cannabis Association.

I support LD 1567. This bill requires AU operators to label product that has been treated with radiation or ozone to kill living microbes. I have never used these methods on products I have sold because it greatly reduces the quality of the product while potentially still leaving behind mycotoxins.
