

To whom this may concern,

My name is Wade Trickey, I am writing to oppose this bill. I am a Maine Native that has lived in the state of Maine for 39 years. I am a father of one as well as a husband of 15 years. I have worked in the medical cannabis industry for the past 5 years. This industry has provided me with a great and reliable source of income to support myself as well as my family. I fear that this bill will negatively affect my way of life as well as the opportunity to support my family.
