

Jon Cadoux
York
LD 2155

Hello,

I would like to express my support for LD 1456 as it was written, and express my concern for changes that would affect the spirit of that bill moving forward.

Providing access to market and ensuring a competitive playing field are key issues for beer in Maine. LD 1456 helped take steps toward ensuring those key initiatives. It was a carefully crafted bill that had broad participation in its drafting. Opposing voices were welcome and Socratic, inclusive conversations were held during its drafting phase. I was extremely impressed by how the Maine Brewers Guild conducted the bill's ideation and execution.

I would hope that this bill stays in place, as it provides a clear framework for ongoing competitive practices and access to market.

Sincerely,

Jon
