S.P. 567

JOINT RESOLUTION MEMORIALIZING THE PRESIDENT OF THE UNITED STATES AND THE UNITED STATES CONGRESS TO NOT REQUIRE THE USE OF E15 GASOLINE

WE, your Memorialists, the Members of the One Hundred and Twenty-sixth Legislature of the State of Maine now assembled in the First Regular Session, most respectfully present and petition the President of the United States and the United States Congress, as follows:

WHEREAS, federal laws and regulations, including the Clean Air Act, the Energy Policy Act of 2005 and the national renewable fuel standard program, have contributed to changes in fuel standards, such as the removal of methyl tertiary butyl ether, or MTBE, as an oxygenate in fuel, leading to the use of ethanol as a replacement for MTBE; and

WHEREAS, only reformulated gasoline is now available for purchase at public fuel pumps and typically contains a 10% corn ethanol blend, known as E10, and in June 2012 the United States Environmental Protection Agency approved the sale of E15, a mixture of 15% ethanol and 85% gasoline; and

WHEREAS, using the fuel blend has been promoted as a method of reducing greenhouse gas emissions and our Nation's dependence on foreign oil but these claims are disputed by several automakers and others, such as AAA, which also claims E15 will damage fuel lines and void vehicle warranties; and WHEREAS, in addition, AAA claims that automotive engineering experts believe that sustained use of E15, both in newer and older vehicles, could cause accelerated engine wear and failure, fuel system damage and false "check engine" lights for vehicles not approved by manufacturers to use E15; and

WHEREAS, E15 also has 5% less energy than gasoline and about 2% less than E10 and therefore could ultimately cost consumers more as a result of reduced fuel economy; and

WHEREAS, the production of corn ethanol is wasteful of fossil fuel resources and does not increase energy security and with this production, which uses 10% of all arable land in the United States, we see increased degradation of vital land and water resources; and

WHEREAS, corn ethanol's impact on food prices is huge and corn is now trading at an all-time high and this affects food manufacturing and other industries such as animal feed businesses; and

WHEREAS, the burning of corn ethanol increases the emissions of gases and hazardous air pollutants that are probable carcinogens and are the causes of numerous health issues such as asthma, chronic bronchitis and other respiratory problems; now, therefore, be it

RESOLVED: That We, your Memorialists, respectfully urge and request that the President of the United States and members of the United States Congress realize the major problems of corn ethanol as a fuel additive and the numerous negative effects it has on not only Maine citizens but all Americans and we urge and request that the President of the United States and the United States Congress consider reversing the decision of the United States Environmental Protection Agency to move forward with the use of E15; and be it further

RESOLVED: That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the Honorable Barack H. Obama, President of the United States, to the Inspector General of the United States Department of Energy, to the United States Environmental Protection Agency, to the President of the United States Senate, to the Speaker of the

United States House of Representatives and to each Member of the Maine Congressional Delegation.

**THE PRESIDENT:** The Chair recognizes the Senator from Cumberland, Senator Millett.

Senator **MILLETT:** Thank you Mr. President. Members of the Senate, I rise today to recognize Maine teachers. I feel truly honored to be able to sponsor this Joint Resolution and speak about the amazing work our teachers do every day. Today, May 7<sup>th</sup>, is National Teacher Day and this week is National Teacher Appreciation Week. We should thank our teachers every day of the week and throughout the year. They work tirelessly preparing lessons, collaborating with their peers, attending workshops and conferences, and answering e-mails. Their day never ends with the bell. They continue to work hard after the school day, at night, and even over the weekends and vacations to make sure they are giving students the best education possible. Education is the great economic equalizer. Teachers help students climb the ladder out of poverty to achieve their American dream. Without them none of us would be where we are today. They teach our children how to read, write, add, and subtract. They don't stop there. They teach students to think, to analyze, to question, to wonder, and to reach for their dreams. I am not sure that we could ever fully understand everything teachers do without walking a mile in their shoes. We each know a teacher that made a positive difference in our own life. Ask an educator and they will tell you that being a teacher isn't just a profession, it

is a passion. There is no giant paycheck. There is no fame. There is rarely glory. Teachers love helping their students grow and learn. Thank you. Thank you to my math teacher, Mr. Wheeler. Thank you to my children's teacher, Ms. Michaud. Thank you to all Maine teachers. Please join me in recognizing these incredible individuals and let's give them the support and thank you they deserve.

**THE PRESIDENT:** The Chair recognizes the Senator from Hancock, Senator Langley.

Senator **LANGLEY:** Thank you Mr. President. Men and women of the Senate, I, too, also rise in support of this Resolution. It is with great heart-felt thanks to those teachers who laid the foundation for my children to succeed in life. As a teacher, I always treated my students as if they were my own kids. I prayed that my children would find that special teacher with whom they would also connect with. They did. We all count on that special relationship with our students and our teachers. It is my great pleasure to support this Resolution today. Thank you very much.

I have concerns about it being another expense to State Government; the maintenance of this new addition to the Capitol Park. I just have concerns over an additional expense. That's the reason why I am going to vote in opposition to the current motion, because of the potential of this becoming an additional expense to our State Government. Thank you, Mr. President.

**THE PRESIDENT:** The Chair recognizes the Senator from Aroostook, Senator Jackson.

Senator **JACKSON:** Thank you Mr. President. Ladies and gentlemen of the Senate, I wanted to rise and make some remarks on this bill. Eleven years ago I was a first term freshman in the House and was selected to serve on the Joint Standing Committee on Labor, which at the time had jurisdiction over the retirement system. One of the gentlemen that was on there, a long serving member, was Russ Treadwell from Hampden. I don't know how many times throughout that session we had bills that came in that was to change the retirement system. Every time that we did former-Representative Treadwell made the argument that this was something that was going to affect the unfunded liability, the retirement system. He said it so many times that, for someone that didn't understand the retirement system very well at that time and still sometimes is not quite sure on how it operates, the unfunded liability argument certainly stuck with me. Through that time a lot of ideas came to the committee and it was always the problem of being able to pay for good ideas because the retirement system wasn't fully funded. I know that it was in a position early on that it didn't have anywhere close to the money that it needed to be fully funded. Through time, I believe even that first session I was on there, I believe it was estimated that it was at 63% fully funded. Through time I believe it got as high as 79%. It was certainly, in my opinion, on its way to be fully funded by the Constitutional Amendment date that it had to be. They did great work with their investments and there was definitely some years that the retirement system did make all kinds of money. Like everyone's investments, there was a severe drop and the retirement system certainly lost a lot of the money

that they had been counting on. When 2010 came in, there were a lot of people that thought we had a severe problem with the retirement system and something had to be done. I heard a lot of people talk about how it was our moral obligation to do this. Quite honestly, I think even before we did anything in the 125<sup>th</sup> session, I believe that the retirement system was almost back to where it had been before the 2008 downturn in the economy. We have a change in the retirement system from the 125<sup>th</sup> that said that anyone with under 5 years of service to the State has to go to age 65 and there was a number of changes with COLAs and things like that. Everyone in the State was affected by that, everyone that was a State employee, except for one. I think that it's certainly something I didn't support. I don't believe that people that were hired on under a scenario that they knew what the retirement was going to be and they knew what the parameters of it was. After they get vested they should have that change in their retirement system. I don't believe that is fair for anyone that has actually been vested. Now we have a change in the retirement system again that only didn't affect one person and I think that that's something that I don't agree with. I don't think that, if you are going to lead by example, everyone that's in the retirement system should have to have a change except for one person. I don't think that that is the way that I certainly would lead by example. What this bill does is only sends it out to the people of the state of Maine. We have a law that, quite honestly, I didn't even know was there until this whole argument about the retirement system came up. It only came to my attention that any Governor only has to be elected to get a full pension and only, quite honestly, has to serve one day. We all know that that is not the case, but that is the way the law is. What this Resolution would do is say that you have to be re-elected. You'd still only have to serve 4 years and 1 day, which would still be the best deal that we have in our retirement system because everyone else has to serve 5 years before they are vested. This still would be the best deal going. I just think that it's not, as you might have heard, people conspiring to steal the pension because the voters would have the opportunity. Quite honestly, if any Governor gets elected twice, 4 years and 1 day, they are going to get their pension just like it is now. I've people say, "Well, it's not fair to change the rules." Well, we changed the rules for everyone except one. I would say that if we want to make everyone feel the pain of what supposedly was a crisis in our retirement system, I think that should go across the board for everyone, regardless of who you are and regardless of what floor you are on. People say that I'm petty. I don't think I'm petty. I think I'm being very fair with this. I think that if you want to make that argument that we have to change our pension system because we're in such a crisis, I think you ought to feel some of that also. Quite honestly, this is just going to be for the voters to decide. It's only going to be for the voters to decide if it's one day you have to serve or if it's 4 years and 1 day. I don't think that's too much for anyone to ask. Quite honestly, I'm very very much okay with this being 34 - 1 because I believe deep in my heart that if you're going to ask people to suffer the pain than you ought to be able to step up to plate and do it yourself.

**THE PRESIDENT:** The Chair recognizes the Senator from Penobscot, Senator Cushing.

Senator **CUSHING:** Thank you Mr. President. Ladies and gentlemen of the Senate, I rise today to speak in regards to the current motion. I appreciate the work that the committee did to

review something. I think they gave it the appropriate consideration that an issue that comes before this Body for consideration should have. I recognize that there are extenuating circumstances related to previous legislation and other Legislatures past. I don't want to digress here since the issue before us is related to a specific report. However, I think we have to reflect on the opportunity there is, if the current occupant of the Executive Branch is to be addressed in this manner. I think there is a simple solution. The Executive has offered us an opportunity where he will forego his pension if we pay the hospitals. Maybe we should bring that forth for consideration. Thank you, Mr. President.

**THE PRESIDENT:** The Chair recognizes the Senator from Kennebec, Senator Katz.

Senator **KATZ:** Thank you Mr. President. Men and women of the Senate, I, too, join with my friend from Penobscot on this issue. My good friend from Aroostook has pointed out that we dealt with the unfunded liability pension liability during the last legislature. As I recall, it was in a very very bi-partisan way. I am proud to say that many of us were part of reducing that unfunded liability by about \$1.7 billion. This would affect that liability, I've done some quick calculations, by about 12¢. In recognition of the fact that we have the lowest paid Chief Executive in whole country and that this is, I would suggest, a disservice to the Governors who have served in the past and to Governors who will serve in the future, I hope my colleagues will join me in accepting the Majority Report. Thank you, Mr. President.

**THE PRESIDENT:** The Chair recognizes the Senator from Aroostook, Senator Jackson.

Senator **JACKSON:** Thank you Mr. President. Very quickly, if it's only 12¢ than that's all the more reason to do it, I guess. As far as the offer that was tweeted, I believe, off the beaches of Jamaica about putting the bill on his desk, I would say that I spoke with the retirement system and after the end of this session I'll have 12 years of service to the State, vested after 5, and my retirement will be \$3,400 a year. Certainly not something that I expected when I got into running for the Legislature but, quite honestly, \$3,400 a year is the only retirement that I'm going to have. I don't know if I'm going to make it to Social Security or not. That being said, for the offer, I've spoken to the retirement system and I've spoken to the Revisor's Office, I'm fully aware, or ready, to have an amendment drafted if this bill goes forward that I will forego my \$3,400 a year because I believe so strongly that people should have some of the pain in what they are saying. If you want to see how this works then vote for the bill because I'm all in on this one.

**THE PRESIDENT:** The pending question before the Senate is the motion by the Senator from Kennebec, Senator Lachowicz to Accept the Majority Ought Not to Pass Report. A Roll Call has been ordered. Is the Senate ready for the question?
